PRESS RELEASE

September 10, 2010

PLAYFULLY REFINED

The Elio Narrow Console wants to make you smile. It wants to brighten your day. It wants to bring levity to your home, all the while conserving its elegant form. Elio combines high design with daring sophistication, a tribute to our entrepreneurial and fearless generation.

With recessed and curved legs and a beveled top, the Elio Narrow Console conveys motion without commotion and playfulness without whimsy.

The console is 65"W x 14"D x 30"H and is offered in all our stained finishes. The collection includes a square coffee and an end table.

"The Elio Collection is about fun and movement," says Jessica D. Holmstrom, founder and president of TerraSur. "The curve on the legs and their diagonal placement are meant to create the illusion of motion without overwhelming the eye. Elio celebrates brighter and better days ahead!"

TerraSur's factory in Argentina is Forest Stewardship Council (FSC) chain-of-custody certified by the SmartWood program of the Rainforest Alliance (COC # 001206). TerraSur is also a member of the Sustainable Furnishings Council.
