**PRESS RELEASE**

March 21, 2011

## **RUSTIC ELEGANCE**

### **Inhabiting different design environments**

The Hugo Dining Table blends the rustic elements of solid wood and brawny metal with the elegance of hand-applied finishing and hand-rolled contours and curves, all of which give the table a robust yet stylish look.

The table has a two-and-a-half inch solid wood top and is offered in three standard lengths, 84", 96" and 108". This new design can be ordered in any of our five stained finishes

"The Hugo Dining Table was born from a desire to offer an alternative to the rustic-industrial designs on the market today," says Jessica D. Holmstrom, owner and president of TerraSur. "We believe the Hugo Dining Table can inhabit different design environments without losing its distinct form."

TerraSur's factory in Argentina is Forest Stewardship Council (FSC) chain-of-custody certified by the SmartWood program of the Rainforest Alliance (COC # 001206). TerraSur is also a member of the Sustainable Furnishings Council.
